

# 4-H CAMP WABASSO

CREATING MEMORIES TO LAST A LIFETIME

## Celebrate Earth Day with 4-H Camp Wabasso! Make a Pinecone Bird Feeder!

### Materials Needed:

- 1 Large Pinecone per Bird Feeder
- Peanut Butter (or Vegetable Shortening)
- 8-inch piece of cotton string (yarn works well!)
- Bird Seed
- Spoon

### Directions:

1. Tie the 8-inch string around the pinecone and then make a loop so you can hang the pine cone feeder on a tree.
2. With a spoon, scoop and press the peanut butter (or vegetable shortening) on the pinecone, carefully pushing the peanut butter under the pinecone scales.
3. Once covered, roll the pinecone in bird seed.
4. Hang the pinecone bird feed on a tree.

**Continue Learning:** After you have hung up your bird feeder, watch it regularly. Draw pictures of the different types of birds that you see in a nature journal!
